

September 20th-22nd, 2022
MTech Users Conference

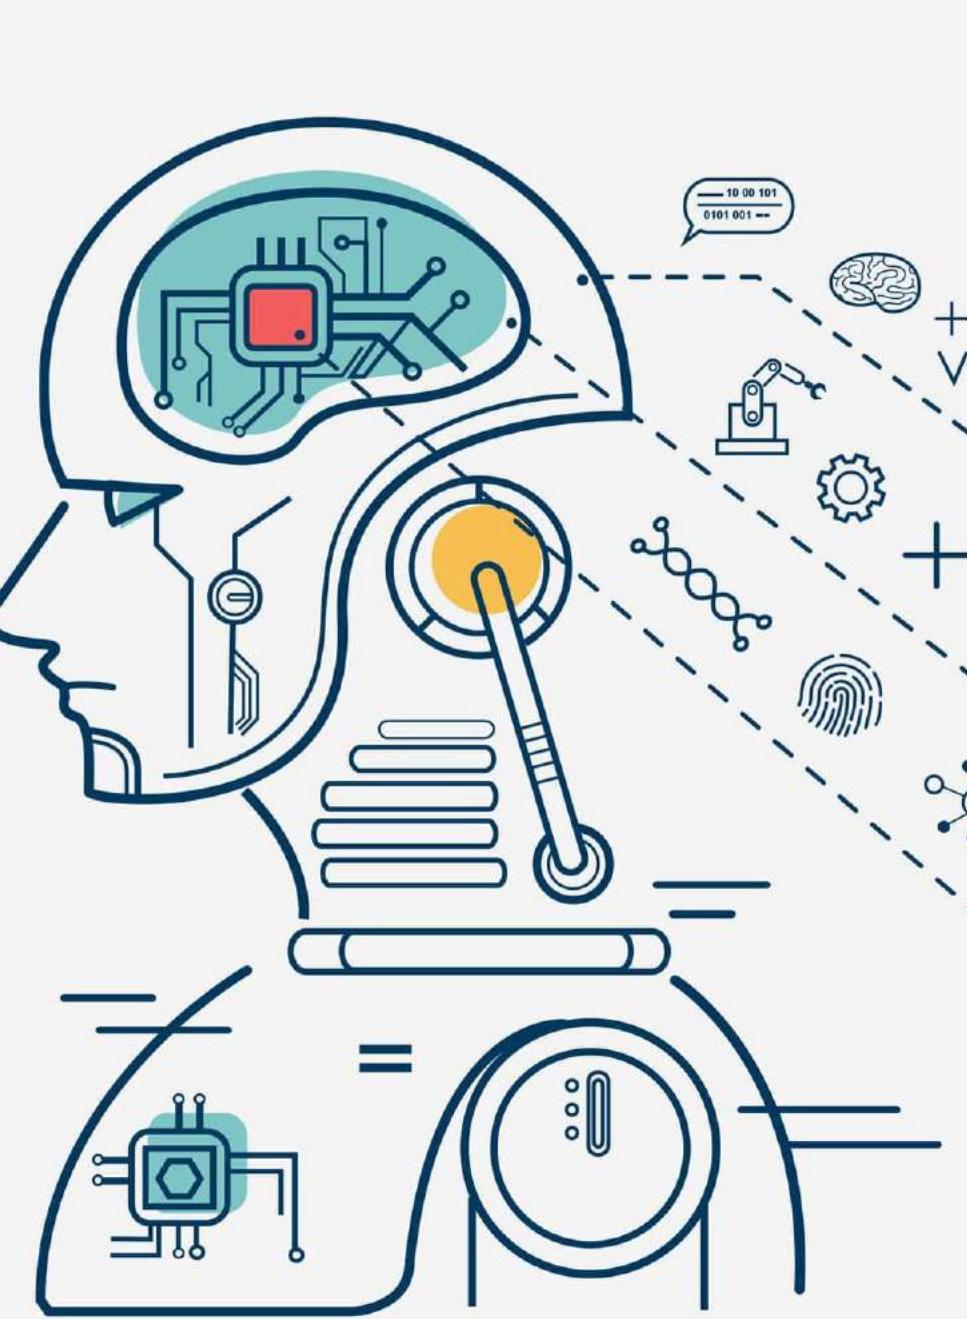

September 20th-22nd, 2022
MTech Users Conference

Evan Sadlon – Data Science Manager

Data Science Detective Work

Goals for Talk

Feature Engineering

- Domain Expertise
- Automation tools

Feature Importance

- Calculation
- Selecting

Modeling

- Interpreting
- Taking Action
- Knowing when to ignore the machine

September 20th-22nd, 2022
MTech Users Conference

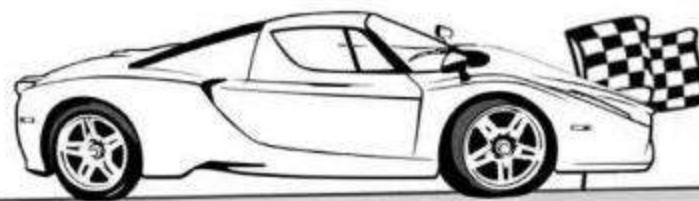

What is Machine Learning

I think big data analysis

Data Extraction

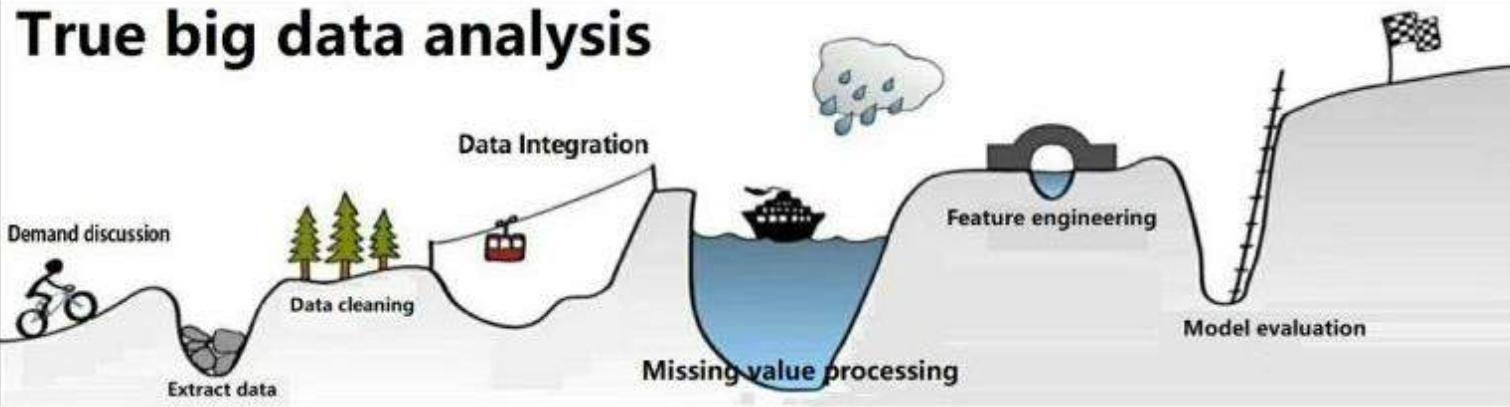

Model establishment

Deep learning, Artificial intelligence

True big data analysis

September 20th-22nd, 2022
MTech Users Conference

Data cleaning

Invalid data

Zero or negative values in...

- *Weekly Field Transaction Feed Consumed*
- *Parent Age*
- *Initial Weight*

Sum of *Cull*, *Mortality*, and *Head Sold* not equaling
Head Placed

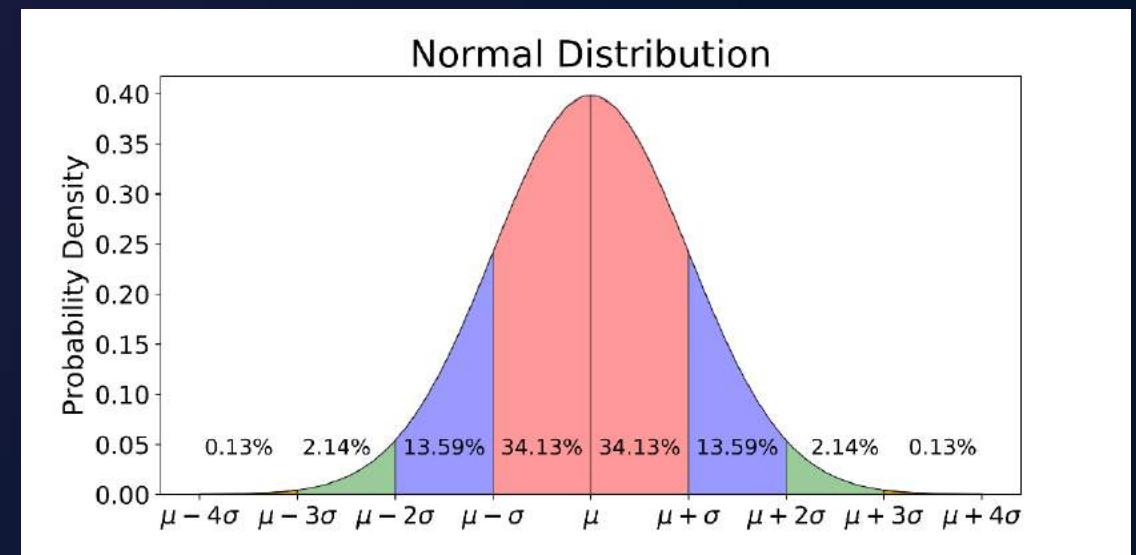

Some weekly *Field Transaction Weights* not increasing

Outliers

- *FCR* value over 3.0
- *Initial Weight* under 30g and over 60g
- *Parent Age*
- *Weekly Field Transaction Weights*

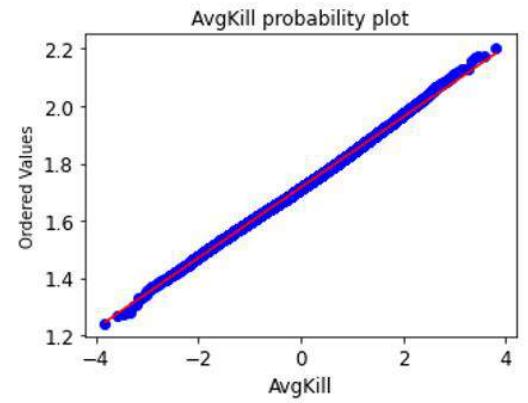

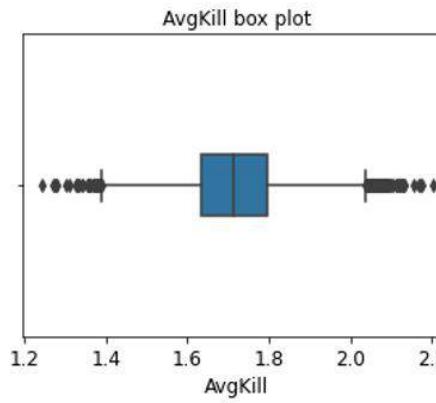

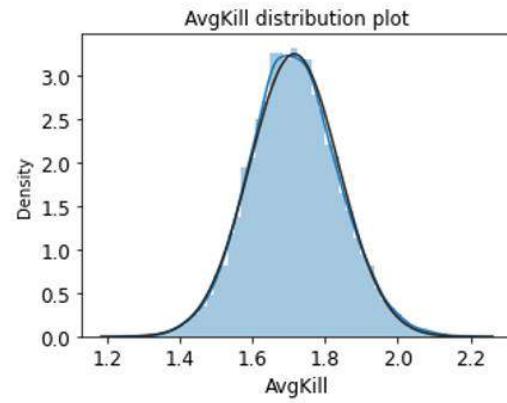

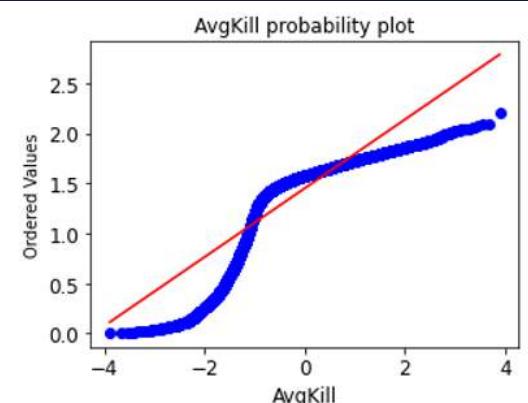

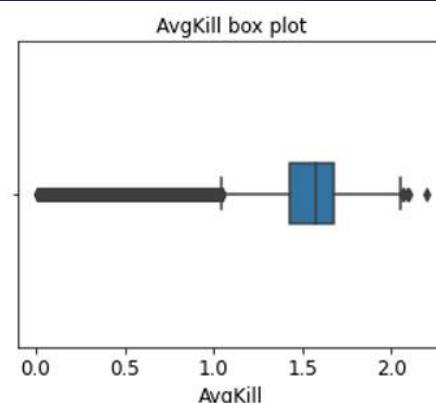

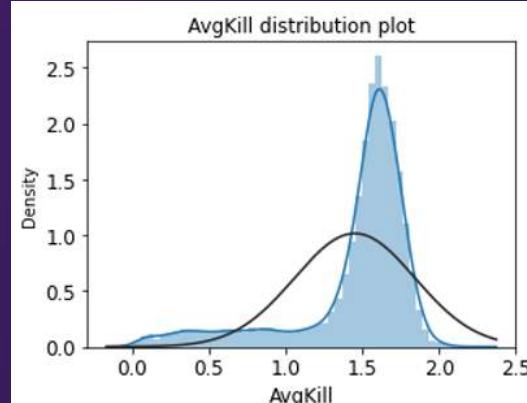

Missing values columns

- Protein Tech Advisor IRN
- Protein Facility Plants IRN
- FDSA Formula Number Assignment IRN

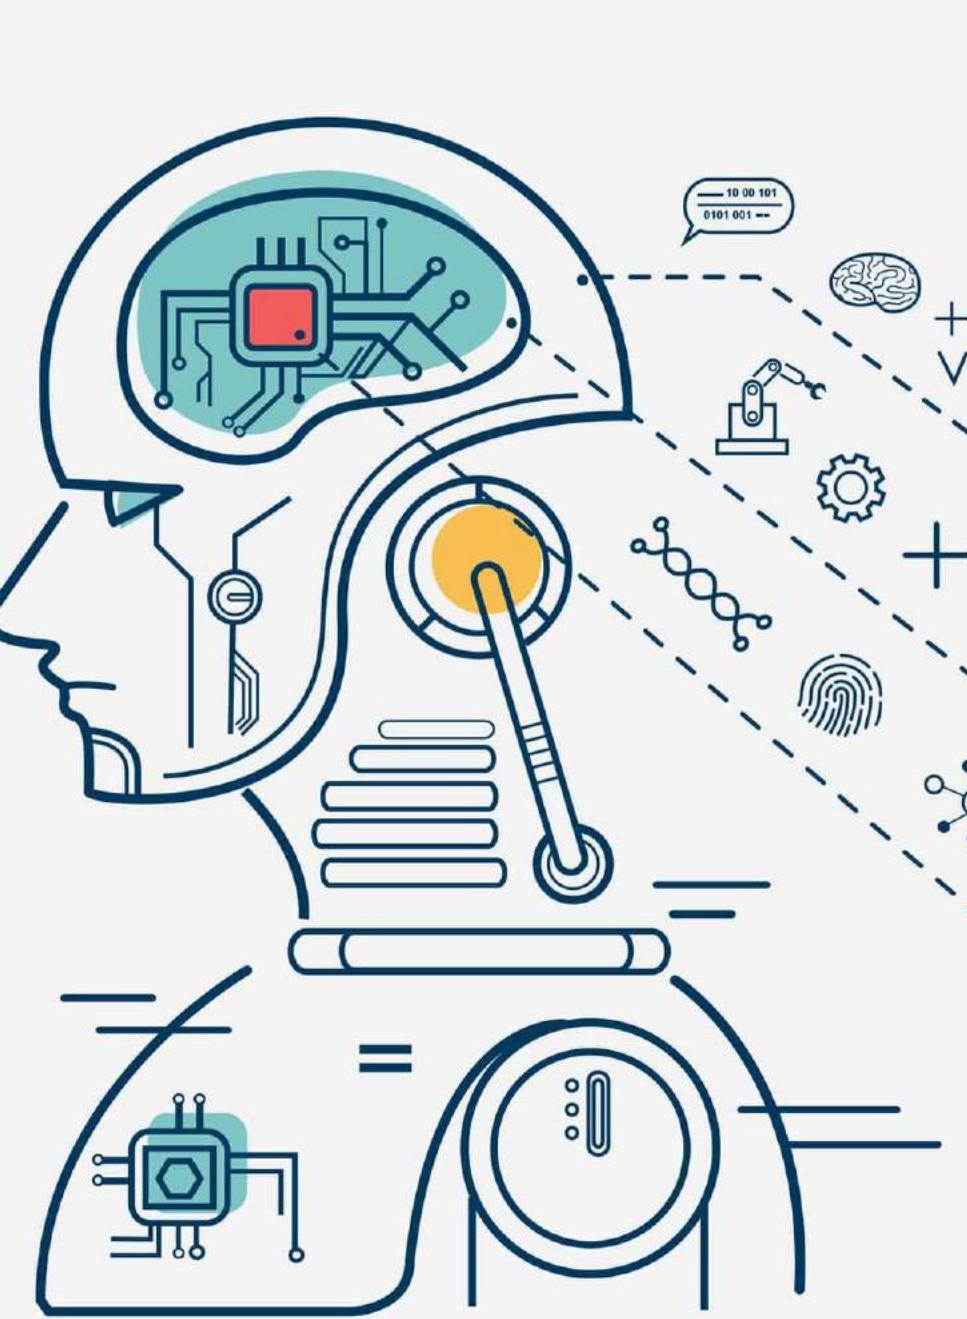

What is Machine Learning

September 20th-22nd, 2022
MTech Users Conference

Goals for Talk

Feature Engineering

- Domain Expertise
- Automation tools

Feature Importance

- Calculation
- Selecting

Modeling

- Interpreting
- Taking Action
- Knowing when to ignore the machine

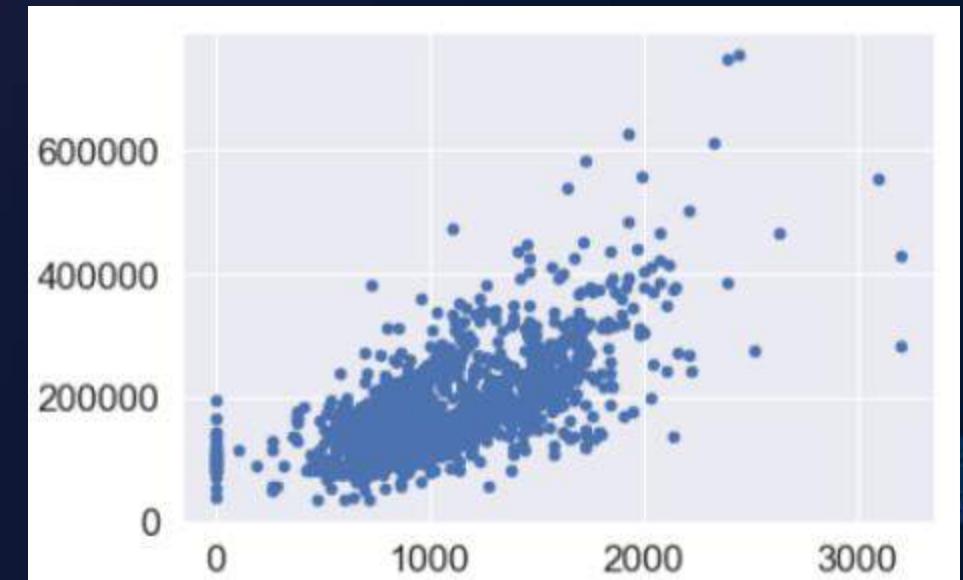

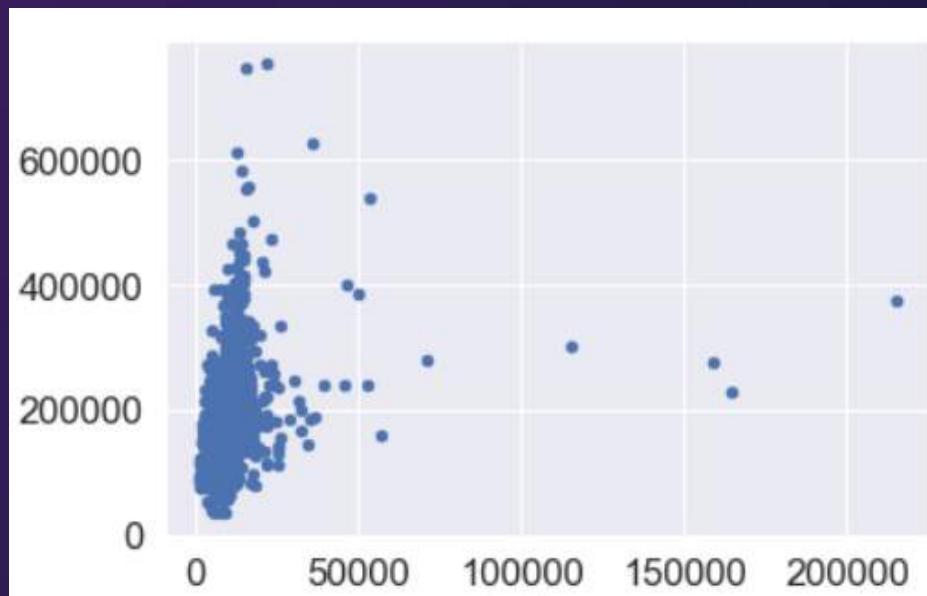

September 20th-22nd, 2022
MTech Users Conference

Feature Engineering

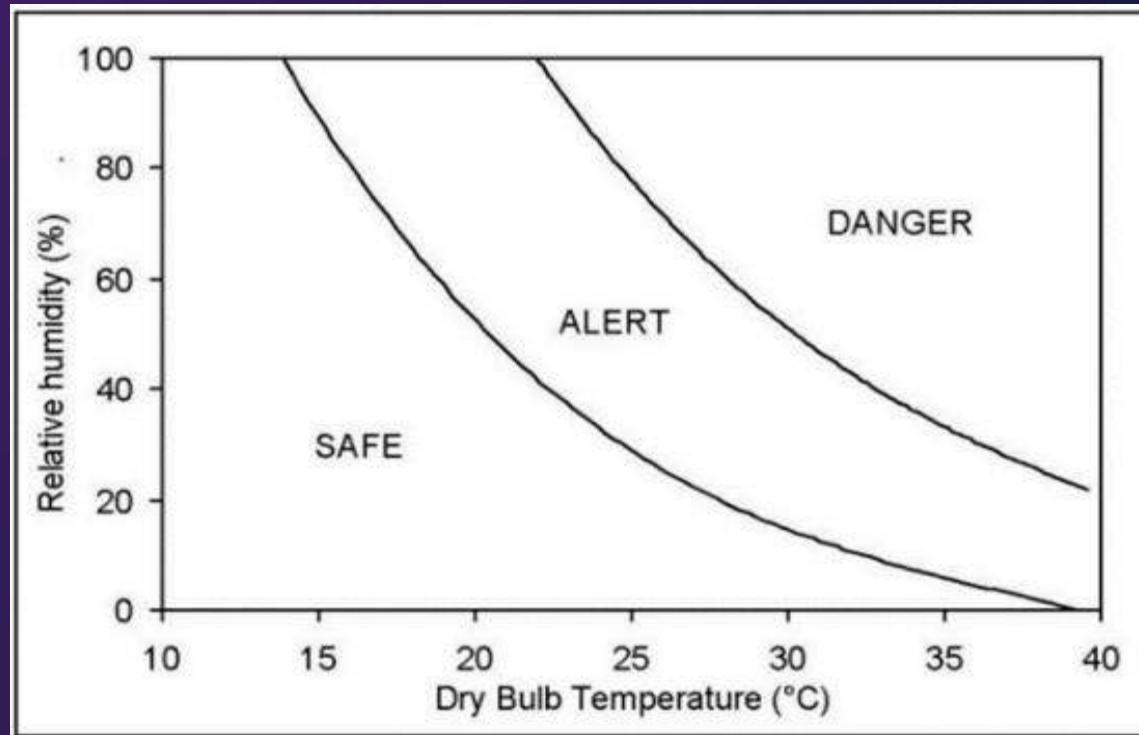

- The act of using domain knowledge by a subject matter expert to make new datapoints that help the machine learn trends and patterns

September 20th-22nd, 2022
MTech Users Conference

Feature Engineering – Domain Expertise

- Stand on the shoulders of giants
- Talk to as many different people as possible
- But don't be afraid to ignore someone's lifehack

Feature Engineering – Domain Expertise

- **AET – By Week and Life of Flock Trend**
 - Stability
 - Trend
 - Across house
- **Curtain opening half to full house brood**
 - What age
 - What temperature when curtains opened
- **Chick receiving**
 - What temperature was house when chicks delivered
 - What outside temperature when chickens delivered

September 20th-22nd, 2022
MTech Users Conference

Feature Engineering - Automated

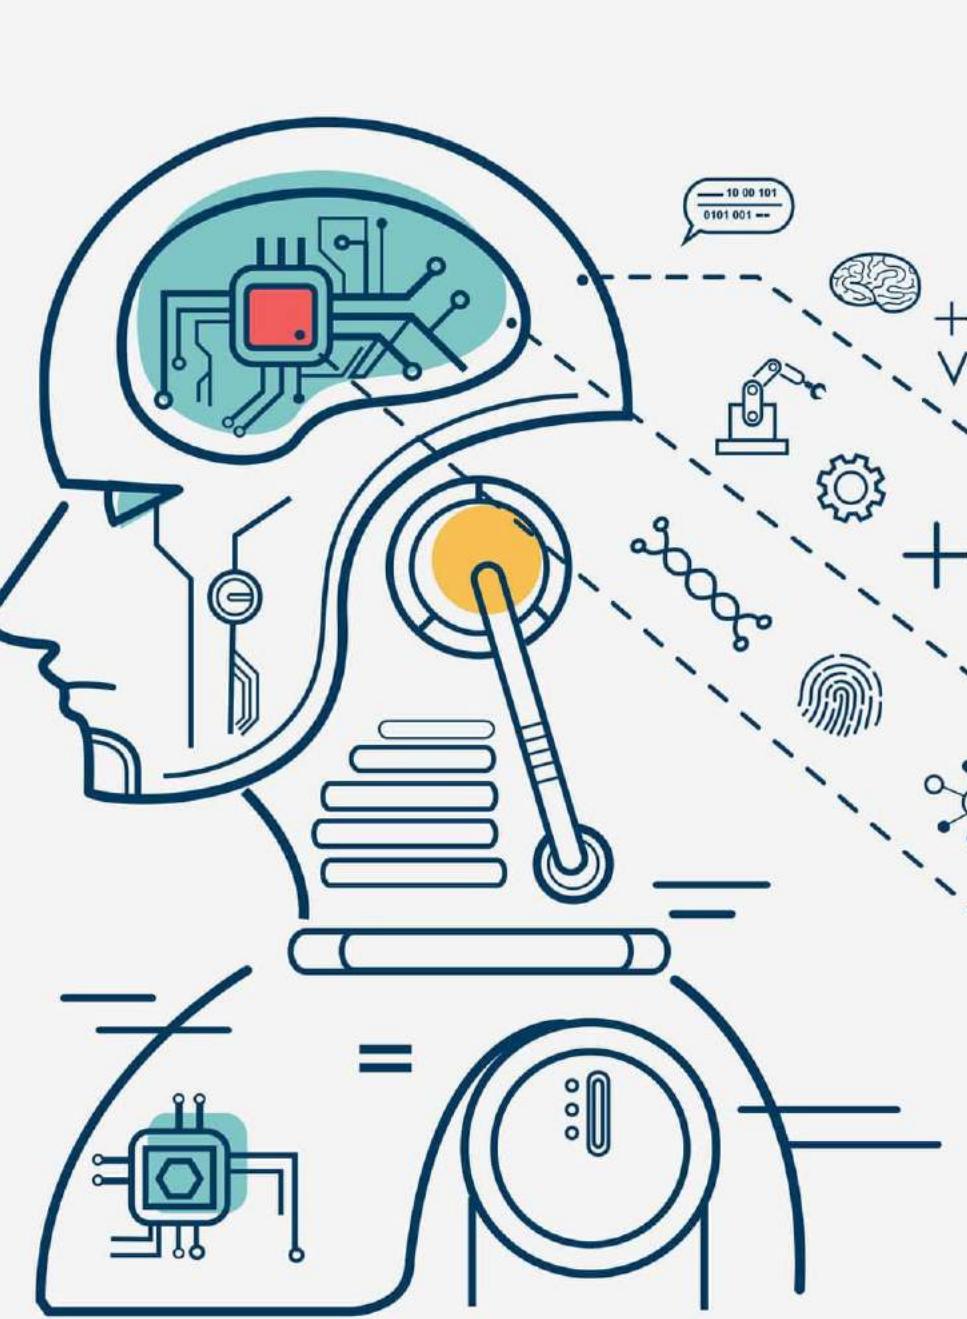

- This can be anything from combining multiple columns, to aggregating over past data. We can turn 6 columns into 600+ columns, but why and how do we choose?

| SonarAge | SonarBirdWeight | Temperature1 | Humidity1 |
|----------|-----------------|--------------|-------------|
| 0 | 0.06723 | 32.37010309 | 61.17938144 |
| 1 | 0.06394 | 32.14123711 | 57.95154639 |
| 2 | 0.07703 | 31.39896907 | 66.00618557 |

Goals for Talk

Feature Engineering

- Domain Expertise
- Automation tools

Feature Importance

- Calculation
- Selecting

Modeling

- Interpreting
- Taking Action
- Knowing when to ignore the machine

September 20th-22nd, 2022
MTech Users Conference

Feature Importance - Calculation

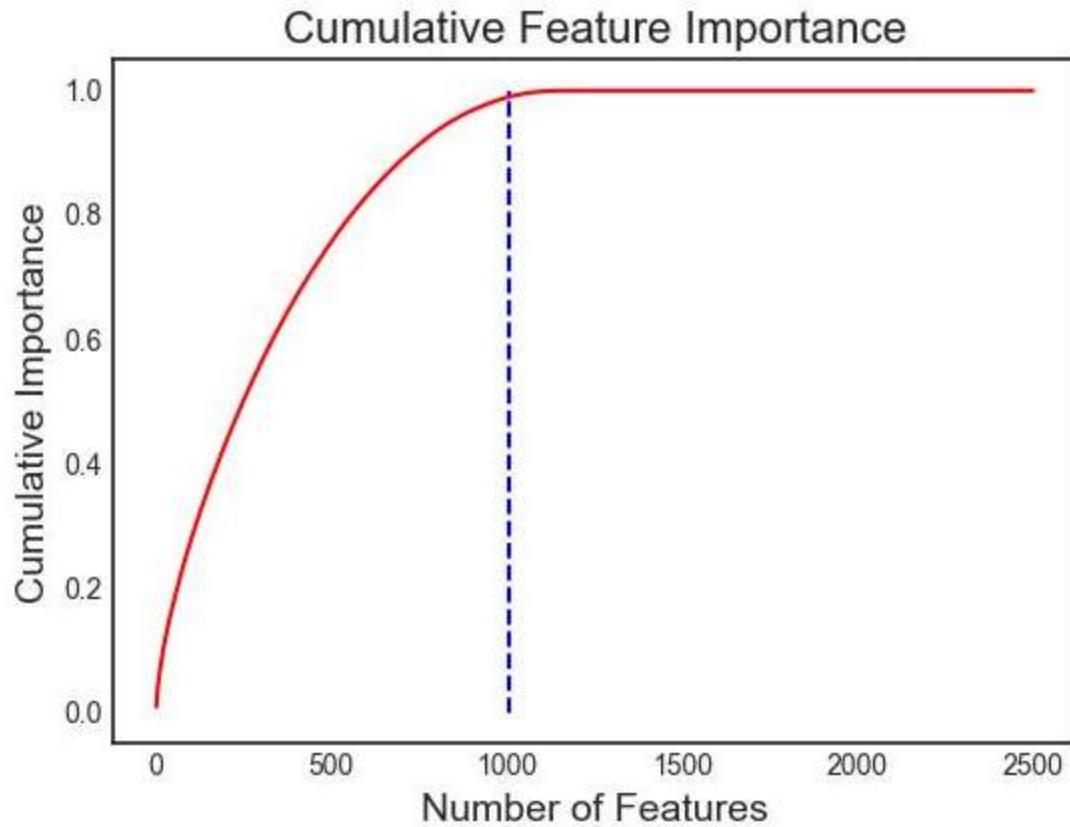

- “Interesting” data
- Accuracy gains/increases
- “Would you rather”

September 20th-22nd, 2022
MTech Users Conference

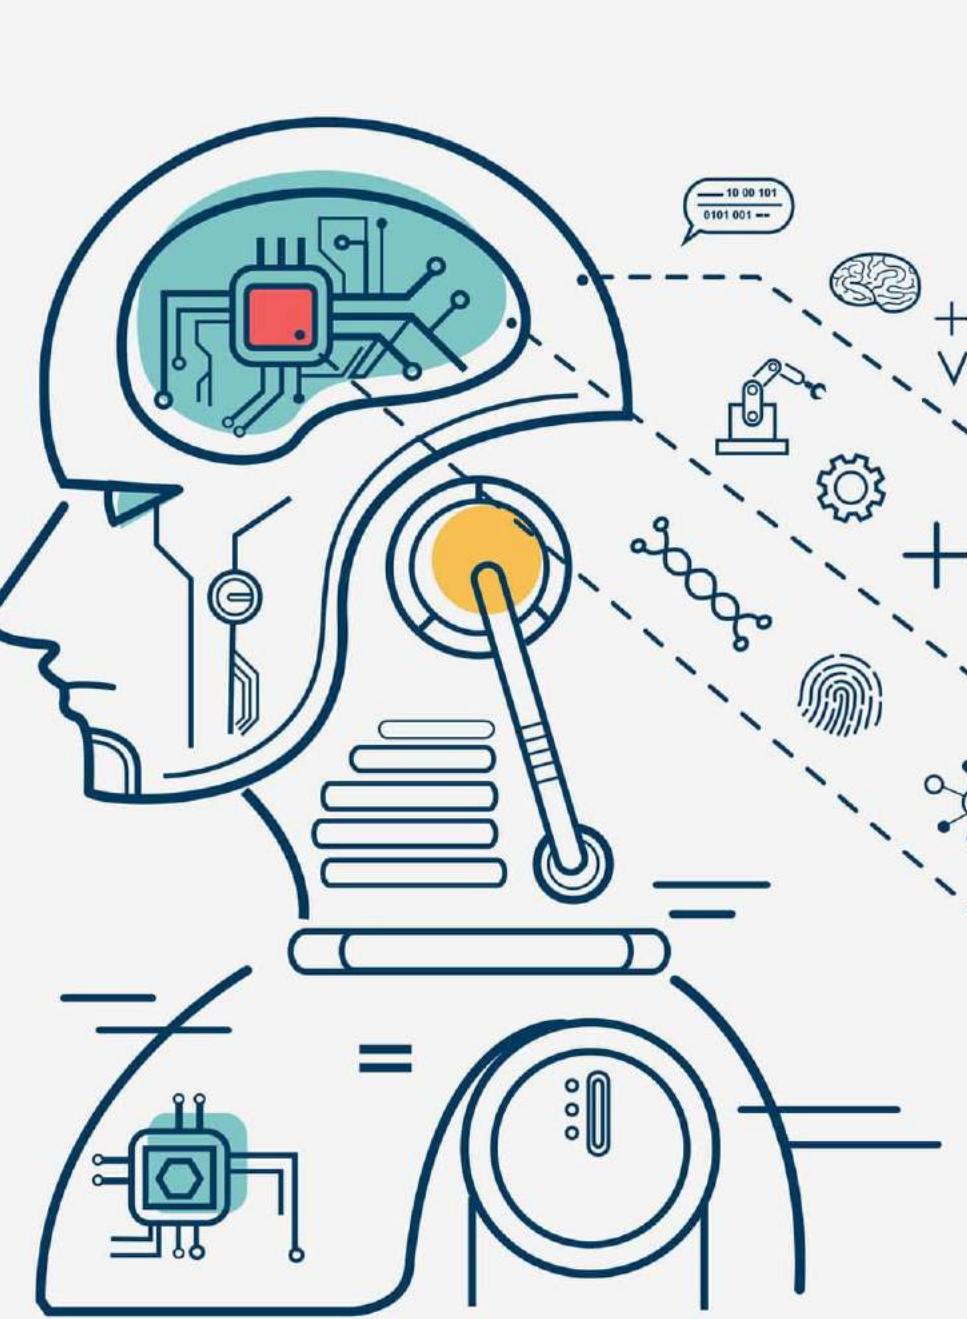

Feature Importance - Selection

- High Missing %
- Collinearity
- 0 importance
- Low importance
- Unique values
- Low variance

September 20th-22nd, 2022
MTech Users Conference
