

FoodXpress

Experience Drives Improvement

FoodXpress is a deployment template that significantly decreases the time it takes to implement Microsoft Dynamics 365 for Finance and Operations.

Our team has over 30 combined years of experience completing hundreds of implementations, giving us a tested and proven **manufacturing industry template** tailored for food and beverage manufacturers.

We created this set of structured processes based on **leading industry scenarios** to move your project forward while keeping costs and timelines under control. With the help of FoodXpress, your new system will be easy for everyone in your company to learn and use on a daily basis.

FoodXpress

Rapid Deployment: Faster Time to Value

PRE-CONFIGURED DATABASE

A fully configured, readily deployable company-wide template designed for quick implementation of your processes into Dynamics 365. Alithya's **preconfigured database** includes a fully operational company, complete with core business processes including: record to report, order to cash, procure to pay and plan to produce, all optimized to reflect the reality of a modern food manufacturing company.

BUSINESS PROCESS

A comprehensive business process model incorporating **over 1,000 business processes** focused on a food manufacturing company that supports **industry-specific implementation activities**, training and workshops.

CLOUD-BASED TOOLSET

A proven implementation approach, fully utilizing Microsoft Lifecycle Services and a **cloud-based toolset** to ensure consistency, predictability and a shortened timeline.

DETAILED TASK GUIDES

A set of more than **600 detailed task guides**, step-by-step instructions that can also be run as **automated guidance** to walk users through daily processes of regular business operations such as product and formula setup, quality data configuration and country/state-specific shipping restrictions.

A Recipe For Success

We've seen the proven successful practices of countless food companies, and leveraged this experience to bundle more than 1,000 leading industry processes into FoodXpress, creating a pre-defined food company with data sets and parameters that are specific to the industry. Our compact timeline combined with FoodXpress's pre-configured infrastructure, toolset and sample data provide an easy place to start an implementation—eliminating costly hours of analyzing and training. Our pre-built transaction-ready environment means you can demo the product with industry-specific solutions and data. Our pre-recorded task guides also increase user adoption by allowing users to quickly take ownership of their processes.

Typical Food Manufacturing Requirements

- Formula focused (not BOM)
- Batch order management
- Batch/lot management
 - Batch/lot expiration dating
 - Batch/lot attribute processing
 - Batch/lot traceability
 - Batch/lot balancing
 - Batch/lot merge
- Quality management
- Co/By-product processing
- Compliance tracking
- Catchweight processing
- Trade promotions
- Customer rebates
- Deduction management

The FoodXpress Methodology

We'll help you streamline a majority of your processes so you can get up and running quickly in your new Dynamics 365 environment, eliminating the long analysis period.

Integrate the few remaining unique processes not previously addressed by our templates.

Optimize processes and fully leverage all the benefits of your historical data for fast business intelligence reporting across your organization.
